# Announcing Proactive & Affordable IT Support

As a business owner you understand the importance of maintaining your IT and preventing unwanted downtime. Unfortunately, when issues arise, there are usually high-costs associated with restoring systems back to working order.

Many business owners call their IT professional when it is too late or when systems are already down. What if you could have prevented the downtime in the first place? What if you had someone monitoring your environment 24 hours a day, 7 days a week?

If you would like to ensure your organization is more productive, then our 7x24, U.S. based Help Desk support team can help.

As your IT Managed Services provider, ECS will improve your overall business benefit from IT!

## ECS Managed Services include:

- » Server Management
- » Desktop Maintenance
- » U.S. Based Help Desk Support Team
- » Unlimited Remote Support
- » Hardware/Software Vendor Management
- » Performance Optimization
- » Network Device Management
- » Printer Support

**For proactive IT support, Think ECS.  
Call us today for a complete IT assessment.**

# Data Center Relocation Experts

Many organizations find themselves in situations that makes a data center relocation a business necessity. Situations such as company mergers, new technology requirements, co-locations/cloud or data center consolidations all can require a data center move.

For anyone contemplating a data center relocation, risk is concern number one. Will you lose data? Will everything come back up in the new data center? What if there is an outage? The potential cost impact of downtime is dramatic.

**Data center relocation is a complex, challenging project that requires special expertise.**

ECS specializes in all solutions that surround the data center. We take the time to understand the customer's issues and objectives. As a result, we consistently provide innovative, cost effective solutions to ensure that your data center move is successful.

## ECS Data Center Relocation services include the following:

- » Discovery, Data Collection and Validation
- » Environmental Analysis
- » Strategy Creation
- » Consolidation Planning
- » Move Planning
- » Data Center Layout Planning
- » Program Management Office & Reporting Services
- » Execute Data Center Move

**If you are moving your Data Center...Think ECS.**
