

## **Enterprise Computing Solutions, Inc. Named to 2015 List of CRN Tech Elite 250**

Annual list recognizes IT solution providers  
with deep technical expertise and premier certifications

**Mission Viejo, California, April 6, 2015** – Enterprise Computing Solutions, Inc. today announced it has been named to The Channel Company's CRN® Tech Elite 250. This annual list recognizes an elite group of IT solution providers that have invested in the training and education needed to earn the most advanced technical certifications from leading vendors.

In compiling the list, The Channel Company's research group and CRN editors collaborated to assess the most customer-beneficial technical certifications in the IT channel. These technical certifications—from vendors including Cisco, Citrix, Dell, EMC, HP, IBM, NetApp, Microsoft, VMware and Symantec, among others—have enabled solution providers to deliver an outstanding level of premium products, services and support to their North American customers.

ECS knows that IT is always changing. As a result, in order to be able to provide the best service to their customers the team at ECS believes it is necessary that we stay informed and proficient on the latest innovations and evolving technology. As a Solution Provider, the ECS strategic approach in assisting customers in their IT decisions requires that the team have the knowledge and expertise to be able to understand our customer's business objectives, including the desired outcome of implementing new technologies. ECS's is to provide their customers with the most optimal solution, and they believe in order to do that effectively they must maintain the highest level of technical certifications.

"The solution providers selected for our annual Tech Elite 250 have demonstrated a commitment to excellence and gained industry credibility by investing in the IT certifications necessary to deliver exceptional service to their customers and stay competitive," said Robert Faletra, CEO, The Channel Company. "These featured solution providers have enhanced and strengthened their partnerships by earning some of the most difficult certifications from some of the most prominent names in IT. We congratulate these organizations and look forward to their continued success."

"ECS is honored to make the CRN Tech Elite 250. We are invested and committed to our customer's success, and that requires that we have the capability to recommend the right long-term solution. Achieving and maintaining the most advanced technical certifications from the leading IT manufacturers ensures that we are able to provide our customers with the best intelligence for their IT decisions" according to Cheri Butler, CFO at ECS.

Coverage of the Tech Elite 250 will be featured in the April issue of CRN, and online at [www.CRN.com](http://www.CRN.com).
